DSS	Marquis	17-2-83	Fee Schedule for Commercial Ambulance Services	3/1/78	Repeal	(2) Regulation is unnecessary.	SPA 11-023, which was effective on July 1, 2011, reduced emergency ambulance rates to what they are today. SPA 13-007 aligned non-emergency ambulance rates with emergency ambulance rates and allows us in both instances to promulgate rates outside of the regulation but in conformance with the approved SPAs. We do not want fee schedules in regulation as it makes them difficult to amend and we need the flexibility to quickly adjust the rates up or down depending on market needs and in response to changes required by the state budget and other changes in appropriations. In addition, specific payment rates are not appropriate for inclusion in regulations, which are rules for operating programs.

DSS	Shaffer	Uniform Policy Manual	Eligibility	Numerous revision dates	Repeal and amend in part	Some regulations are unnecessary; others are necessary but changes are necessary to correct inaccurate information	<p>Statutes authorizing the Department of Social Services (DSS) to administer the Connecticut Pharmaceutical Assistance Contract to the Elderly and Disabled program (ConnPACE) were repealed by section 156 of Public Act 13-234, effective January 1, 2014. Therefore, it is recommended that all provisions of the UPM pertaining exclusively to ConnPACE be repealed. These provisions include UPM sections 8075 to 8075.45, inclusive, and section 8099.75. In addition, provisions making reference to ConnPACE and other DSS-administered programs should be amended to remove all ConnPACE references. These include UPM sections 0300, 0400 and 8000.</p> <p>Various other provisions of the UPM are more than four years old and some are outdated. However, even prior to the issuance of Executive Order 37, DSS, on its own initiative, dedicated an attorney to the revision of the entire UPM to convert it to a document that it is current and more readable, and that conforms to the organizational and stylistic norms of the Regulations of Connecticut State Agencies. In the coming months and years, these revisions will be submitted through the appropriate regulatory promulgation process on a program-by-program basis as they are completed, and will ultimately be submitted to the Secretary of the State for publication on the eRegulations system.</p>
